

# **Adventurous Kids Design a Postcard**

Think of somewhere you have been on holiday. Design the postcard you would send to your friends. You could include landmarks, food and things you would do there.

The image shows a large rectangular frame divided into four quadrants by a vertical line and a horizontal line. A smaller horizontal rectangle is centered in the middle of the frame, overlapping the horizontal line. This layout is intended for a child to design a postcard, with the quadrants representing different parts of the postcard (e.g., top-left for a drawing, top-right for an address, bottom-left for a message, and bottom-right for a return address) and the central rectangle representing a space for a title or a specific message.
